

Captivating solutions –
The **CONVOY** product line.

We believe that there are more important things to worry about than **storing food**.

Although we can easily go out and fetch supplies practically whenever we like by popping to the nearest supermarket or even a petrol station (at night time or late on Sundays), every household still keeps a stock of foods. Pasta, sugar, flour, rice, salt, cocoa, jam, tinned food, sauces, ketchup ... are just a few examples.

Even this short list is enough to explain why it is that most people end up significantly underestimating the quantity and value of their own stored foods. One of the main reasons for this is that many kitchens do not have a specific, central place for stored foods. Instead, people nearly always store food in a wide range of cupboards. And that is anything other than ideal. You lose track of everything, you waste time searching for things and many foods are simply overlooked or forgotten. This leads to unnecessary duplicate purchases and is exactly the opposite of what you want. Now, at last, there is a solution!

”Perfect storage saves a great deal of time and money, increases flexibility - and is now easier than ever before!**“**

CONVOY Premio

Setting new **standards.**

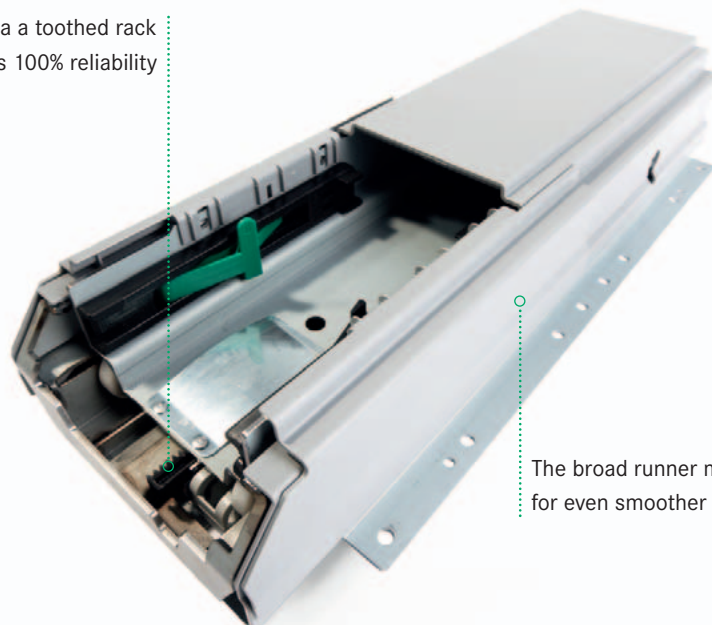

As a leading expert and major player in the larder and corner unit market within the field of kitchen furniture fittings, we have spent decades researching the fundamentals of intelligent storage. Our Dispensa and Tandem classics have become the defining standards for good reason.

We are determined to play a major part in shaping the future of kitchens by providing new fitting systems and solutions. The CONVOY product line is not just a clear expression of our pioneering spirit, but is yet another way for Kesseböhmer to set new standards for an entire industry.

Synchronisation via a toothed rack
guarantees 100% reliability

CONVOY Centro –
Bringing tomorrow's
standards forwards
to today.

Optional side railing, available in various materials, colours and designs

Individually height-adjustable shelves

CONVOY Centro – The basis for the entire CONVOY product line.

The key starting point for developing the entire CONVOY product line was the idea of the conventional pull-out larder. By carrying out extensive market analyses we have succeeded in building on the principles of this concept and have managed to create a modern and captivating system. The CONVOY Centro, which serves as the “central” basis for the entire product line, stands out thanks to its elegant and innovative appearance as well as its completely new and convenient product characteristics. The free-floating shelves do away with conventional frame structures. In fact, the new top guide design (which involves a connection to a structural base that can be flexibly positioned) means that the innovative single-tube frame is not restricted to particular heights. This provides more options with fewer variants.

Flexible design thanks to **freely insertable side railings**. Whether you prefer glass, wood or metal – you can have any layout you want.

Thoroughly tested – CONVOY works just as well **without a side railing** and is just as captivating. The shelves seem lighter and appear to float in mid-air, and products can be accessed with absolute ease.

CONVOY Lavidò
will win your heart
with its straightforward
and open approach.

Different materials are available for the front and side railings.

CONVOY Lavido – More than a kitchen solution.

Extremely flexible and elegant. CONVOY Lavido illustrates just how versatile the CONVOY system can be. Because it is compatible with any front panel, CONVOY Lavido is the ideal storage solution for all kinds of layouts, e.g. even behind sliding doors.

CONVOY Lavido is not just a means of storing products; it ensures they are presented in an attractive and emotionally appealing way. This elegant larder unit is suitable for use in modern kitchens as well as in dining areas or in the workplace, for example. The large number of intelligent details is exactly what you would expect from a product that claims to offer premium technology.

CONVOY Premio –
Getting the very best
from innovation.

CONVOY Premio:
Opening it up is an adventure in itself.

CONVOY Premio is a clear expression of Kesseböhmer's pioneering spirit. This unique solution is the culmination of our entire expertise in the areas of technology and design. You will be spellbound by the product's ability to operate absolutely silently even when full and the elegant opening motion of the door that seems to float in mid-air.

The CONVOY Premio creates an emotional connection when you open or close it: The products slide out of the cupboard, moving directly towards you so that you can access them from three sides. With CONVOY Premio stocking up on food becomes a real adventure.

The CONVOY product line expresses the principle of “**modern storage**” perfectly.

Adjustable – And the sky is practically the limit!

The **CONVOY product line** really stands out thanks to its flexibility. For example, the height of the shelves can be adjusted with a single movement of the hand. In a nutshell, CONVOY brings together a whole host of functions that make it the perfect pantry – and not just in the kitchen.

CONVOY is ideal for many other storage tasks as well: from storing dishes and storage containers right through to clothes, media or books.

The CONVOY product line offers practically limitless possibilities.

Why not discover it for yourself?

The key **product properties** at a glance.

- Force-synchronised runner with toothed rack – 100% reliable operation
- Runner as “one package”
- Integrated closing cushioning
