

180°trays mounted on an axle

Organised space
on **three levels.**

The semicircular wire trays give the fitting a professional look.
It's easy to check the contents of the lower trays from above.

180° trays as carousel inside
a hinged door

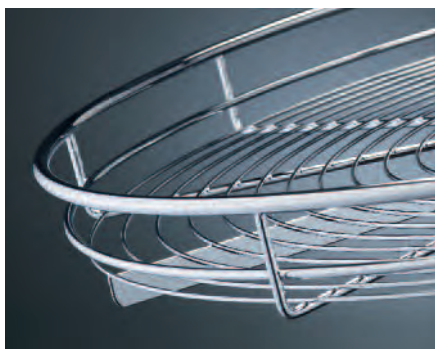

The benefit:
even with three levels, contents
are easy to reach

180° trays and metal baskets
make good use of space

REVO 90° – user-friendly corner unit solution where front panels turn with the carousel.

Innovative mechanics in a classical solution.

Mechanically this system is engineered to ensure a totally controlled movement sequence – the doors fold gently away, the carousel rotates smoothly, the doors close automatically. With rotational damping and REVOfit, it's a pleasure to watch. With REVOfit, the closing speed can be adjusted quickly and toollessly. Steplessly adjustable trays let users make good use of the storage space. Adding a third tray and/or a pan tray – even as a retrofit – lets users create even more storage area.

Toolless axle
height adjustment

For use in 80 and 90 cm
cabinet widths

Height of ARENA trays and baskets
can be changed at any time

Easy upgrade by adding
a 3rd tray – even after the
fitting has been installed

Standard with:

On request with:

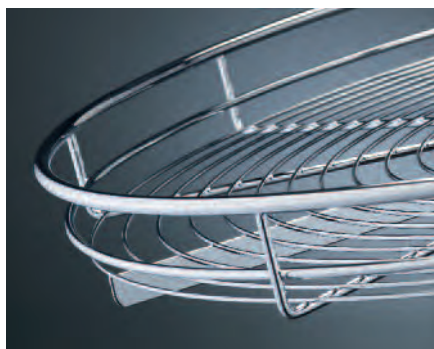

ARENAplus
anti-slip finish

Pan tray:
A partial intermediate level
makes space for pans and tall
items in a REVO 90°.

Clip-on front panel connector mounted on frame.

Fast, reliable, toolless assembly. The clip-on connection saves time and guarantees perfect functioning. Because it's always correctly positioned!

Accessories for ARENA Classic

A range of accessories boosts the utility and ease-of-use of ARENA fittings. For example, choosing a lid rack, or dividers, helps to optimise use of space and makes for tidy storage and fast access. Giving users extra choice is part of the image of a high-end product.
