

Corner cabinet SPACE CORNER cabinet for kitchen utensils

Perfecting motion 

Practical film dispenser in the preparation zone

Prepared meals can be covered in seconds with the ORGA-LINE film dispenser. Blum's dispenser rod guarantees crease-free dispensing and a precise cut. Blum also offers a foil dispenser.

Kitchen utensils and knives are kept nice and tidy in corner cabinets

Knives and cooking utensils are needed most on work tops. This corner drawer is an ergonomic solution, ensuring that utensils are easily accessible and immediately to hand. Matching ORGA-LINE inner dividing systems organise interiors and ensure clear visibility.

Open provisions are organised and held securely

Open packs of flour, sugar and semolina can be accessed quickly and easily, which is ideal for preparing food. The flexible longside and cross dividers ensure that contents will not spill.

Bowls are close to hand

Bowls are often needed for preparing food. The SPACE CORNER cabinet keeps sieves, measuring cups and bowls easily accessible and within easy reach.

i

Info

Cooking utensils are conveniently to hand, even in corners

The cabinet shown here may vary in width and design. The recommended width is between 900 mm and 1,200 mm. Ask your kitchen seller for advice.

BLUMOTION

inside

The BLUMOTION soft-close system ensures silent and effortless closing of lift systems, doors and pull-outs.

TIP-ON

inside

The mechanical opening support system TIP-ON enables handle-less design of lift systems, doors and pull-outs.

SERVO-DRIVE

inside

The electric opening support system SERVO-DRIVE brings top functionality and ease-of-use to handle-less furniture.
