Everyday life is made up of  
essential details.

A dinner with friends is a special occasion: the cooking needs to be just as you would expect it, the ingredients kept fresher, the food served on sparkling-clean plates, laid out on an immaculate tablecloth... Homes require a great deal of attention and we are here to help you, as we care the same way you do.

MINIMALIST  
GLASS  
COLLECTION

## INTRODUCING OUR RANGES

A complete suite of appliances crafted from high quality materials. Black glass and steel perfectly align to create a modern and state-of-the-art kitchen. The harmonious and coordinating design flows through the range, transforming your kitchen into an elegant and sophisticated space.

# AESTHETIC LINES

## STUDIO 7

GLASS  
AND STEEL  
REFINED

Stunning black glass and highlights of steel combine beautifully in this line that integrates perfectly in contemporary kitchens. A selection of co-ordinating appliances inspired by effortless interaction make the everyday extraordinary..

# AESTHETIC LINES

## STUDIO 5

HI-TECH  
STYLE

Through bold design, this line portrays a brilliant hi-tech note to convey originality. Solidly beautiful appliances, aesthetically co-ordinated, with a modern balance of design and function.

# AESTHETIC LINES

## STUDIO 3

ESSENTIAL  
TIMELESS  
DESIGN

The beauty and solidity of steel enhances the form and design of this line. Hotpoint's response to today's practical needs - ideal for every kitchen, thanks to its timeless design.

## OVEN TECHNOLOGY

### TRANSFORM YOUR COOKING INTO A NEW EXPERIENCE IN FLAVOUR.

Hotpoint's new ovens are designed to give you free rein in your desire to try things out, letting you express your creativity in the kitchen with consistently excellent results. Perfect cooking, on both the inside and outside of the food, enhancing the flavour and fragrance of every recipe. All thanks to an integrated system of advanced technology.

#### MULTIFLOW TECHNOLOGY

Perfectly even cooking results. A new convection system that creates an enveloping heat flow for optimal heat distribution throughout the oven. This ensures consistently even cooking for perfectly served dishes every time.

#### ELECTRONIC TEMPERATURE CONTROL

Precision control at your fingertips. Intelligent temperature sensors minimise temperature swings to give precise and consistent temperature control to within 2 degrees for the best cooking results.

#### MULTIRECIPES

Enjoy professional cooking results at home. Automatically programmed recipes that select the ideal cooking parameters (heating elements, temperature, ventilation and timings) to ensure even the most gourmet dish will turn out beautifully.

#### TAILORED PROGRAMMES

A selection of semi-automatic programmes which recommend cooking parameters and guide you in choosing the ideal temperatures and shelf positioning for the dish you are preparing – you can then tailor the temperature and time settings to suit your own preferences.

#### PROBE

Insert the meat probe into your joint prior to cooking and monitor the temperature during the cooking process. An audible signal will sound and the display will indicate when the probe has reached the requested temperature.

## MULTIRECIPES

### 28 Automatic Preset Recipes

Enjoy perfectly cooked dishes with 28 automatic pre-set recipes selected using the intuitive touch controls..

#### PASTA

Lasagna  
Cannelloni

Fish Fillets in Hazelnut Crust

#### PIZZA & PIE

Pizza  
2 Pan Pizza  
Vegetable Pie  
Quiche Lorraine

#### DESSERTS

Fruit Tart  
Strudel  
Apple Pie

## OVEN TECHNOLOGY

### CLEANING: WHEN EASY MEETS PERFECTION.

Cooking may be a pleasure, but cleaning the oven is a chore. Hotpoint ovens offer a number of cleaning programmes, making it so easy you don't have to worry about this task, and you won't need any chemical detergents..

### PYROLYTIC SELF-CLEANING

The oven that safely cleans itself so you don't have to. A special programme that safely locks the door and heats up to 500°C to burn off any fat and grease, leaving just a small pile of ash. And, at just a few cent per cycle, it'll save you money in oven cleaners and gloves!

### CATALYTIC CLEANING

The self-cleaning system guarantees perfect results with no effort and no detergents. The inside walls of the oven are covered by special panels treated with microporous enamel that, through a catalytic oxidation process, captures the grease evaporated during the cooking process.

### HYDRO CLEAN

Hydro Clean is a technology that uses the strength of steam to clean the oven without requiring detergents. The entire oven has a special coating with cleaning properties, that are activated during the steam clean cycle. The cycle reaches a temperature of 90° and lasts just 35 minutes. Simply clean the interior of the oven and the door with a damp cloth at the end of the cycle for sparkling clean results.

## OVEN TECHNOLOGY

PRACTICAL DETAILS,  
ALWAYS THERE  
TO HELP.

Even the internal parts of the oven are designed to offer the best practical use. What is more, it can be cleaned effortlessly and in total safety.

### TILTING GRILL

Thorough cleaning throughout the oven: simply unhook the upper grill and carefully clean the surface above it.

### TELESCOPIC SHELVES

Move things in and out of the oven simply and safely with extendable telescopic shelves – so you can baste, taste and stir, safe in the knowledge the shelf won't tip.

### OVEN DOOR

The full width inner door glass is perfectly smooth to make cleaning a breeze. It is treated with advanced technology that makes it thermo-reflecting which not only ensures it is cooler to the touch but gives notable energy savings due to lower heat loss and better insulation.

### SOFT CLOSING

The soft-closing device is a system that uses next-generation hinges to gently shut the oven door, and prevent it from banging.

### ANTI-FINGERPRINT STAINLESS STEEL

The steel finish has a stain-proof and fingerprint-resistant finish. Even when used on a daily basis, the surface remains gleaming and bright.

## MICROWAVES & COMPACTS

"I would like a microwave oven that can crisp my food like a traditional oven in less time"

---

MAXIMUM DISTRIBUTION  
OF THE MICROWAVES

---

DYNAMIC  
FUNCTIONS

---

MULTIRECIPES

---

## MICROWAVES AND COMPACTS

### COOKING BECOMES PERFECTION.

Our innovative microwave ovens, with a wide range of functions and programmes, are the perfect choice for rapid, fat-free cooking that preserves all the nutrients of your food. Speed is no longer a barrier to enjoying crispy, golden and tasty food that is evenly cooked throughout. Our unique technologies work together to ensure each dish is cooked to perfection to suit your own taste.

#### MULTIWAVES TECHNOLOGY

Consistent and even cooking throughout your dish. Innovative technology perfects the microwave distribution inside the oven which ensures the microwaves reach every part of the food. This unique movement of the microwaves means more even cooking, heating and defrosting to ensure superior cooking quality, even when you're in a hurry.

#### DYNAMIC CRISP

For heating frozen food to the perfect temperature so it's ready to serve straight away.

#### DYNAMIC STEAM

For cooking vegetables and fish: water is brought to the boil immediately and kept at a boil for the entire duration of the cooking process.

#### DYNAMIC DEFROST

The ideal system for defrosting food quickly and safely, preserving all the nutrients. Simply select the type of food and its weight: the microwave will automatically calculate the time required for perfect even defrosting.

#### DYNAMIC REHEAT

For reheating ready-made food either frozen or at room temperature.

#### COMBINATION COOKING

Combining Microwaves with Oven or Grill function to ensure food is cooked to perfection and golden brown on the outside

## VERSATILE FUNCTIONS.

Whatever you are cooking, Hotpoint microwaves offer a variety of up to 9 versatile functions to help you achieve the results you want every time via different cooking methods and combinations. Choose from: MICROWAVE, CRISP, GRILL, GRILL + MULTIWAVES, TURBO GRILL, TURBO GRILL + MULTIWAVES, FORCED AIR, FORCED AIR + MULTIWAVES, QUICK HEAT.

### MULTIRECIPES

Multirecipes is the range of automatic recipes for Studio 9 microwave ovens, so complete it can prepare almost any dish, from appetiser to dessert, by simply selecting the specific function. The microwave controls and automatically adjusts the cooking parameters according to the functions selected for perfect results.

PASTA & RICE

CHICKEN

BREAD AND CAKES

MEAT

VEGETARIAN

SNACKS

FISH

DISHES

DESSERTS

SIDE DISHES

PIZZA AND PIES

### ACCESSORIES

Our microwaves come complete with accessories to help you create healthy recipes or crisping dishes without adding any fat.\*

#### STEAMPOT

The lower part of the pot has been designed to generate steam while the microwave is operating, which means it is ideal for cooking vegetables, fish and other healthy, light food.

#### CRISP PLATE WITH HANDLE

This is used to cook crispy or au gratin foods in just minutes, giving the dish a tasty golden crust without frying. The practical temperature-resistant handle means the plate can be handled safely.

#### GRILL PAN

The essential accessory for best positioning the dishes to cook, activating the Forced Air Function.

*\*Accessories provided according to the model of microwave oven*

## STEAM OVEN

### NEW HOTPOINT STEAM OVEN. PERFORMANCE AND VERSATILITY FOR A HEALTHY KITCHEN.

Our new combination steam oven creates nutritious meals with perfect results. All the nutritional benefits of delicate steam cooking combined with the ability to crisp foods on the outside using a combination of the fan plus steam functions ensures delicious results.

### UP TO THREE COOKING METHODS

Our combination steam oven is designed for maximum versatility. In addition to using the oven as a steamer, you can use the fan function to guarantee excellent golden brown results, while the combination fan + steam ensures crispy and soft foods in less time: the perfect combination especially for roasts, prepared frozen food and desserts.

### TAILORED PROGRAMMES

Assisted cycles facilitate the preparation of any recipe: in addition to suggesting the cooking parameters, they guide you in choosing the correct temperature and shelf.

MEAT & POULTRY

RICE & CEREAL

DESSERT

FISH & SHELL FISH

PASTA

BREAD & DESSERT

POTATOES

EGGS

VEGETABLES

PIZZA

### MEAT PROBE

Check the cooking progress at any time without opening the oven door using the special meat probe. Simply insert the probe into the food before putting it into the oven and watch the temperature on the display – ideal for the perfect roast.

## COFFEE MACHINE

### NEW HOTPOINT COFFEE MACHINE. FOR THE PERFECT ESPRESSO OR CREAMY CAPPUCCINO.

Our latest coffee machine ensures the flavour is always perfect, just like your favourite cafe, and can easily be tailored to your taste. The control panel features touch keys and a clear display for simple and quick controls. In addition to the unmistakable Italian espresso, using the automatic programmes, milk can be added to the special cappuccinatore to make creamy cappuccinos, lattes and latte macchiatos. And with the Timer function, you can save your favourite settings with a simple touch and your coffee will be ready whenever you want.

#### COFFEE BEANS OR GROUND

The extremely silent integrated grinder lets you choose between either ground coffee or coffee beans. You can adjust the grind to larger or finer whichever suits your taste and coffee style.

#### SELECT YOUR PERFECT SIZE

It just takes a moment to personalise and save your favourite type of coffee, choosing between espresso, small or medium cup, or a mug.

#### ADJUSTING FOR CAPPUCCINO

The amount of coffee and milk can be adjusted to get the cappuccino just right for you. The cream of the milk can also be adjusted: more or less thick to suit your preference.

#### HOT WATER AND STEAM DISPENSER WITH DOUBLE BOILER

Use the special hot water and steam dispenser to prepare traditional and herbal teas. The double boiler delivers perfect temperature control so you can make an espresso while getting your milk ready.

## HOBS

"I'd like to cook my food more quickly, but in a way that gets it perfectly cooked throughout for great results."

---

EVEN HEAT  
DISTRIBUTION

---

FASTER  
COOKING

---

PRECISION  
CONTROL

---

## INDUCTION HOBS

**FAST, EVEN  
COOKING  
WITH MAXIMUM  
PRECISION.**

Induction cooking generates heat via a magnetic field only activated by the presence of the pan, so only the cooking zone becomes warm. The heat is spread uniformly across the entire pan ensuring you always get perfect cooking results whichever dish you prepare.

### FLEXI-ZONE

Maximum cooking flexibility and precision control. Flexi-Zone provides an ideal cooking zone, where you can place saucepans from 12 to 24 cm diameter and shift them freely from one zone to another. The surface of the hob responds and adapts to the saucepans placed on it, activating heat only when it has detected the exact size. On top of this, when you use the two areas separately, each can be regulated independently.

### PREMIUM SLIDER

High speed control. Every cooking zone can be regulated by its own slider. The slider offers an easy and intuitive method of selecting temperature and functions: with just one movement you can quickly and precisely set one of 9 possible heat levels, according to your requirements. The slider immediately supplies you with audio and visual feedback.

## CHEF MODE

Enjoy professional cooking results at home. A unique set of automatic pre-set functions to help create the perfect dish. Simply select each function with a single touch:

### MELTING

The ideal temperature for sauces and other delicate procedures, avoiding the risk of burning the contents on the bottom.

### SIMMERING

For all those recipes which require slow gentle cooking, only verging on boiling point..

### KEEP WARM

Maintaining food at serving temperature without further cooking, until you are ready to serve it...

### QUICK BOILING

All the heat you need to reach boiling point as quickly as possible.

CERAMIC HOBS:  
TOTAL CONTROL,  
WITH STYLISH FLAIR

## OVAL ZONE

For increased cooking flexibility. Use as a single zone, or a double zone for large pans, fish kettles and griddles.

## DOUBLE RING ZONE

Fast and flexible heat on the hob, for any size of pan. Heating up in just 5 seconds, our Double-Ring Zone can be used as a single or a double zone for larger pans.

## 9 POWER LEVELS

Precision cooking at your fingertips. From the lowest setting for the perfect simmer to maximum power for fast heat-up times. With 9 power levels to choose from you can be sure of the perfect heat for your dish.

## TOUCH CONTROL

Smooth control at your fingertips. Touch control hobs are easy to clean with a smooth surface and allow precise temperature control. You can also lock the control panel for extra safety once the temperature has been set.

## GAS HOBS

### EVENLY SPREAD HEAT THAT HEIGHTENS THE TASTE OF EVERY RECIPE.

Our exclusive patented gas hob technology provides superb cooking results. Sure to satisfy even the most demanding users they deliver a more even heat distribution across the base of the pan with minimal heat loss, ensuring more even and faster cooking.

#### DIRECT FLAME TECHNOLOGY

For the finest cooking results. Giving the widest possible heating area, our Direct Flame technology produces perfectly even heat across the entire surface of the pan to ensure the finest cooking results. Delivered via 420 tiny holes, vertical heat is spread uniformly across the pan, with no lost heat around the edges, saving up to 20% in time and energy.\*

\*Compared to a standard gas burner.

#### PRECISION LED CONTROLS

Easy-to-select heat levels for precise control. The new ergonomic control dials are easy to read, making it possible to set precise flame levels. The LED lights allow you to select and check the appropriate flame level more easily, so no more peeking under the pan to check, making it easier to obtain the exact heat levels required.

#### HINGED PAN SUPPORTS

Crafted from hard-wearing cast iron, our pan supports have a hinged mechanism which is extremely practical for quick and easy cleaning. In one simple movement they can be folded up to a vertical position, without removing them from the hob.

## SPECIAL BURNERS: FREEDOM AND PRECISION IN THE KITCHEN.

The special gas burners make it possible to choose the ideal cooking conditions for every recipe, achieving optimum results with maximum versatility.

### DOUBLE CROWN WITH DUAL CONTROL

Extremely versatile and powerful, this makes it easy to cook with different pan sizes, adjusting the flame independently on each of the two concentric burners (from 0.9 to 4.1 kW). The small flame is perfect for small pans or espresso makers whilst the large ring can be used for bigger pans. Or use both together to give a major boost and bring a pan of water to the boil quickly..

### TWIN BURNERS

The most flexible system possible, consisting of two elliptical burners which can be rotated and used together or on their own, providing a uniquely adaptable burner unit designed to perfectly fit pans of every conceivable shape or size.

### TRIPLE CROWN

The Triple Crown burner consists of a single piece and is a Hotpoint innovation that guarantees outstanding evenly spread cooking and is up to 15% faster than other quick burners.

### CAST IRON PAN SUPPORTS

Cast iron pan supports are available on the majority of our hobs. Cast Iron Pan supports are extremely durable and are wider than standard enamel pan supports providing better stability when cooking.

## DISHWASHERS

"I want a dishwasher that removes baked-on food, first time."

---

PERFECT REMOVAL OF  
STUBBORN FOOD

---

NATURAL ELIMINATION  
OF ODOURS

---

MAXIMUM LOADING  
FLEXIBILITY

---

## DISHWASHERS

### OUTSTANDING TECHNOLOGY FOR PRISTINE RESULTS.

Designed to eliminate even the most stubborn baked-on food and to neutralise odours from dishes waiting to be washed, Hotpoint dishwashers take care of everything; freeing up your time so you never need to wash up by hand again.

### ZONE WASH. 30% MORE CLEANING POWER

The new intensive washing technology which concentrates its cleaning jets onto the zone with the most stubborn baked-on food. Simply choose the zone where you need to direct the impact of the Zone Wash system, to get perfect sparkling clean results every time. With the intensive cycle, the Zone Wash function produces an ultra-intensive wash which is 30% more effective compared to a full-load intensive cycle. With the normal cycle, Zone Wash produces a normal-intensity wash that cuts energy consumption by 25% compared to a normal full-load cycle.

### ACTIVE OXYGEN. NATURAL ELIMINATION OF UNPLEASANT ODOURS

Reduce odours by up to 70%. Active Oxygen technology releases trioxxygen ( $O_3$ ) molecules that break down and remove up to 70% of unpleasant odours, in a completely natural way. Perfect for in-between wash cycles.

### HOW ACTIVE OXYGEN WORKS

The active oxygen molecules generated by this system react with the odorous substances in the air and oxidise them, neutralising unpleasant smells. Active Oxygen does not require refilling or maintenance.

## FLEXIPOWER INVERTER MOTOR

Clever sensor cleaning using just the water and energy you need. Get perfect cleaning results with our Flexipower motor which uses intelligent sensors to detect how dirty your dishes are. It automatically adjusts water pressure, temperature and cycle length to suit the load, so you only use the water and energy you actually need.

## SUPER SILENT

As low as 41 dB(A) - So quiet, you'll hardly notice it working. Our advanced brushless motor and sound-insulating panels reduce noise levels dramatically, so you won't be disturbed.

## HYGIENE+

Tough interior that protects and cleans. Patented 4-stage water filtration and a tough, long-lasting stainless steel interior gives you effective, hygienic cleaning power that keeps bacteria at bay and improves drying results..

## COUNTER-BALANCED DOOR

The right balance for easier loading. The counter-balanced door stays put at any angle for safe, easy loading and unloading.

## EXTRA CUTLERY TRAY

Several of our dishwashers are supplied with an additional cutlery tray that sits on top of the upper basket, the 3 zone wash version includes a slide out basket that is designed for perfect storage of cutlery

# DISHWASHERS

## FLEXILOAD. FLEXIBILITY MAKES SPACE FOR EVERYTHING.

The Flexiload system offers maximum loading flexibility, fitting tableware for up to 13, 14 or 15 people. All configuration options include adjustable elements to provide correct and efficient accommodation for the specific contents. Special colouring makes the adjustment controls clearly visible for user convenience.

## SMART FILTER

Our entire dishwasher range comes equipped with a smart filter. The 3 stage filter ensures food residue of every size is trapped and is easily removed for simple cleaning

## 15 PLACE SETTINGS

Fully loaded and flexible for up to 15 place settings. Our cleverly designed cutlery basket and upper and lower baskets mean you've got room for an extra two place settings in a standard-sized dishwasher, with no compromise on cleaning.

## THIRD BASKET

Sliding and modular, its surface area can be reduced by two-thirds in order to make space for bulky items on the level below it..

## EASY HEIGHT ADJUSTMENT

The upper baskets position can be easily adjusted to accomadate taller loads on the bottom basket

## FOLDABLE RACKS

The bottom level tray includes 8 foldable stacking racks which can create 4 independently manageable areas to house the desired mixture of pots and plates.

## REMOVABLE PAN SUPPORTS

Useful for holding frying pans or oven pans vertically, to save space and improve stability.

## CUTLERY TRAY

As well as the usual cutlery basket, some models come with a practical cutlery tray, easy to slide and remove, and offers extra flexibility in load arrangement.

## COOLING

"I often find that I don't eat the food I buy straight away, but I'd like to keep its original taste, flavour and texture intact for several days"

---

FOOD AS FRESH AS  
IT WAS ON DAY ONE

---

AIR CIRCULATION  
THROUGHOUT THE FRIDGE

---

REDUCED FROST FORMATION  
IN THE FREEZER

---

## REFRIGERATION

ACTIVE OXYGEN 2.0  
FOOD AS FRESH AS IT  
WAS ON DAY ONE

---

### THE TECHNOLOGY THAT RELEASES ACTIVE OXYGEN MOLECULES.

Careful conservation of food contributes to good health. That's why Hotpoint fridges take such good care of your food. The innovative Active Oxygen 2.0 device purifies the air by simulating nature's way of releasing oxygen molecules in the form of active oxygen, and naturally slows the process of food deterioration. So it keeps its original freshness for longer. It's the best system for preventing food waste.

---

### GUARANTEED EFFECTIVENESS, TESTED RESULTS.

The automatic release of active oxygen molecules keeps food fresh for longer and reduces the formation of bacteria and odours.

- Reduces the growth of micro-organisms
- Prevents odour contamination
- Food keeps its original colour and texture

---

### NO EXTRA ENERGY CONSUMPTION, NO MAINTENANCE

Active Oxygen 2.0 technology also ensures maximum efficiency, because it requires no additional power or maintenance, and you never have to change the device.

## FROST FREE

Frost Free technology, creates a homogeneous cold air flow and stops the formation of frost. This makes for better and longer food preservation. On top of this, the separate air flow controls prevent the contamination of odours and flavours between the fridge area and the freezer compartment.

Forced ventilation enhances performance in preventing the formation of frost inside the freezer compartment.

## LOW FROST. FREEZER WITH MORE SPACE AND LESS ICE

Low Frost technology reduces ice formation to minimise defrosting. The evaporator is built into the outside structure of the freezer rather than via the traditional grilles found in most freezers. This not only reduces the amount of ice formed, it is easy to remove from the flat surfaces of the walls and top of the freezer cavity. The removal of the grilles also creates extra valuable space inside your freezer.

## AIR TECHNOLOGY VENTILATION. PERFECT AIR CIRCULATION

Better air circulation around the fridge keeps food fresher for longer. The Air Technology system constantly circulates air around the fridge to maintain a constant and uniform temperature with the right degree of humidity to prevent food drying out for perfect storage conditions.

## FOOD CARE ZONE

The perfect conditions for storing meat and fish. A dedicated zone design to keep more delicate foods like meat and fish at an optimum 0°C.

## SUPER FREEZE

Keep food as fresh as the day you bought it. This option reduces the freezer temperature further to quickly freeze fresh food, keeping it as fresh as the day you bought it.

## SUPER COOL

After a big shopping trip or cooking session, a large number of new items in the fridge cause the internal temperature to rise. Use Super Cool in the fridge to quickly cool the temperature back to the optimum level.

## HYGIENE +

Antibacterial Protection is built into our fridge liners giving protection for the life of the product. Working between normal cleanings it inhibits the growth of potentially harmful bacteria and reduces odours.

## INTEGRATED LARDER FRIDGE - HFB3190

## LAUNDRY

"I'd like to wash my family's clothes without having to do a second wash to completely eliminate stains."

---

REMOVAL  
OF STAINS

---

PROTECTION  
OF FABRICS

---

ANTI-ALLERGY  
PROTECTION

---

## LAUNDRY

### BEAT YOUR STAINS AND TAKE CARE OF YOUR FABRICS.

Featuring the same innovative technology you would expect to find on our freestanding washing machines, Hotpoint's integrated washers and washer dryers feature anti-stain technology, anti-allergy programmes and carry the Woolmark Accreditation that care for the clothes you love.

#### ANTI-STAIN TECHNOLOGY

Removes 20 of the most stubborn everyday stains in one wash without pre-soaking. By cleverly managing detergent, water, drum rotation and temperature. The final result is the total elimination of all stains in a single wash, while taking great care not to damage the fabrics.

#### ANTI ALLERGY. ALLERGY UK APPROVED TO CARE FOR SENSITIVE SKIN.

Awarded the Allergy UK Seal of Approval, our anti-allergy programme uses a combination of high temperature technology and extra rinses to neutralise and remove 99.9% of major allergens, including dust mites and pollen.

#### WOOLMARK. CERTIFIED SOFT AND GENTLE CARE FOR WOOLENS

A delicate wash programme that keeps your woollens as good as new. It uses an extra gentle drum action and low spin speeds to stop clothes rubbing together and keep them looking beautiful for longer (In the UK and Ireland the Woolmark is a Certification Trade Mark).

#### STEAM TECHNOLOGY

Choose from 2 separate steam cycles. Steam Refresh is a short 20 minute cycle that removes odours and smells. Steam Hygiene adds an extra period of steam at the end of a full wash for a deep intensive clean.

## SUPER SILENT MOTOR

So quiet, you'll hardly notice it working. Our advanced brushless motors reduce noise levels dramatically, so you won't be disturbed.

---

## ANTI TANGLE

A special motor that is designed to provide reverse action of the drum, this contrasting motion results in tangle free drying of the clothing

---

## SOFT MOTION MOTOR

Innovative technology that protects your fabrics and keeps colours from fading using our Soft Motion Motor, which runs at variable speeds for precise control of the drying cycle.

---

## SENSOR DRYING

Set and forget for perfect drying and clothes care. Our own 'set and forget' drying system that uses sensors to monitor moisture and temperature levels inside the dryer and stop the machine when it reaches whichever one of 3 levels of dryness you've chosen.

---

## ECO CYCLES

Great cleaning performance with no wasted energy. Save up to 70% in energy with our Eco Cycles/Eco Wash function, specially programmed for great results on the Cottons, Synthetics and Fast Wash cycles, without wasting heat and energy.

---

## READY TO WEAR 60

Outfit washed, dried and ready to go in just 60 minutes. A special programme designed to wash and dry a small load of lightly soiled garments in just 60 minutes - perfect for those urgent occasions..

---

## SUPER WASH

Add more power to your washing cycles. Gives you maximum wash flexibility and great cleaning performance by combining an intensive super wash function with other wash cycles.

---

## ANTI AGEING

Our Tumble Dryers feature our Innovative wave design drum and lifters make sure your clothes are gently floating on a cushioning of air to keep their natural softness and colour

---

## FIBRE PROTECT +

Complete care for all your laundry. A range of programmes specially designed to dry a wide variety of fabrics so your laundry is kept looking great and in tip top condition

Plus PRF €5

### 7KG WASHING MACHINE - HWM071404W

1400 rpm Max Spin Speed  
Wash Performance: A  
Energy Rating: A++  
Spin Performance B  
LCD Display Incl Time To End  
Cleaning Action Selector  
Variable Temperature & Spin  
Platinum Care Wool Cycle  
Polar White

Eco Wash Function  
Bed & Bath Cycle  
Super Silent Wash  
Time Saver Option  
Reduced Crease Option  
Child Lock  
30° Silk Wash  
24 Hr Delay Timer

R.R.P. €350  
Plus PRF €5

### 8KG WASHING MACHINE - HWM081400W

Anti Stain Technology  
8kg Capacity  
Anti Allergy  
1400 rpm Max Spin Speed  
Wash Performance: A  
Energy Rating: A+++  
Spin Performance B  
LCD Display Incl Time To End  
Cleaning Action Selector  
Variable Temperature & Spin  
Platinum Care Wool Cycle

Eco Wash Function  
Bed & Bath Cycle  
Super Silent Wash  
Time Saver Option  
Reduced Crease Option  
Child Lock  
24 Hr Delay Timer  
30° Silk Wash  
Polar White

R.R.P. €400  
Plus PRF €5

### 9KG WASHING MACHINE - HWM091400W

Anti Stain Technology  
9kg Capacity  
Anti Allergy  
1400 rpm Max Spin Speed  
Wash Performance: A  
Energy Rating: A+++  
Spin Performance B  
LCD Display Incl Time To End  
Cleaning Action Selector  
Variable Temperature & Spin  
Platinum Care Wool Cycle

Eco Wash Function  
Bed & Bath Cycle  
Super Silent Wash  
Time Saver Option  
Reduced Crease Option  
Child Lock  
24 Hr Delay Timer  
30° Silk Wash  
Polar White

R.R.P. €450  
Plus PRF €5

### 10KG WASHING MACHINE - HWM101600W

Eco Rain  
1600 rpm Max Spin Speed  
Wash Performance: A  
Energy Rating: A+++  
Spin Performance A  
LCD Display Incl Time To End  
Cleaning Action Selector  
Variable Temperature & Spin  
Platinum Care Wool Cycle  
Steam Function

Colour Care Technology  
30° Silk Wash  
Bed & Bath Cycle  
Super Silent Wash  
Time Saver Option  
Reduced Crease Option  
Child Lock  
45' Rapid Wash  
24 Hr Delay Timer  
Polar White

R.R.P. €800  
Plus PRF €5

### 11KG WASHING MACHINE - HWM111400WT

1400 rpm Max Spin Speed  
Digital Display Incl Time To End  
Wash Performance: A  
Energy Rating: A+++  
Spin Performance B  
Variable Temperature & Spin  
Anti Allergy Cycle  
Time Saver Option  
24 hour Delay Start  
White With Tungsten Door

Eco Wash Function  
Bed & Bath Cycle  
Platinum Star Wool Cycle  
Colour Care Cycle  
Ultra Delicate Cycle  
Easy Iron Option  
Steam Refresh Cycle  
Steam Hygiene Option  
Child Lock

R.R.P. €700  
Plus PRF €5

## 8KG CONDENSER DRYER - HTDC081W

15 Programmes  
Anti Allergy,  
Jeans, Delicates,  
3 Automatic Drying Levels  
Safety Start Button  
Delay Timer  
Empty Water Indicator Light  
Polar White

Shirts,  
Cottons,  
Easy Iron and Refresh  
Timed Tumble Drying  
Reverse Tumble Action  
Cool Tumble  
Energy Rating: B

R.R.P. €400  
Plus PRF €5

## 9KG CONDENSER DRYER - HTDC090W

13 Programmes  
Anti Allergy,  
7 Automatic Drying Levels  
Fibre Protect Plus  
Reverse Tumble Action  
Cool Tumble  
Empty Water Indicator Light  
Polar White

Anti Ageing,  
Shirts,  
Timed Tumble Drying  
Safety Start Button  
Delay Timer  
Energy Rating: B  
Soft Motion Motor

R.R.P. €450  
Plus PRF €5

## 9KG CONDENSER DRYER - HTDC091W

13 Programmes  
Anti Allergy,  
7 Automatic Drying Levels  
Fibre Protect Plus  
Reverse Tumble Action  
Cool Tumble  
Empty Water Indicator Light  
Polar White

Anti Ageing,  
Shirts,  
Timed Tumble Drying  
Soft Dry Technology  
Delay Timer  
Energy Rating: A+  
Soft Motion Motor

R.R.P. €600  
Plus PRF €5

## LAUNDRY

### Tumble Dryers

#### 7KG VENTED DRYER - HTDV072W

Anti Tangle Technology,  
High And Low Settings  
Energy Rating: B

Anti Ageing  
Timed Tumble Drying  
Polar White

R.R.P. €270  
Plus PRF €5

#### 8 KG VENTED DRYER - HTDV080W

Digital Display Including Time To End  
3 Level "Set & Forget Sensor" Drying  
Energy Rating: C  
Anti Tangle Technology  
Cottons Option  
Timed Drying  
Jeans Option  
Polar White

Anti Ageing  
Anti-Allergy  
Quick Dry  
Baby Delicate  
Delay Timer  
Silk Programme  
Easy Iron

R.R.P. €300  
Plus PRF €5

## Need an answer?

If you have a question about any Hotpoint appliance, simply pick up the phone. We can give you information about individual models, ranges and specific features. Our information line is open from 8.30 am to 5 pm Monday to Friday.

Please call: 0818 36 50 08\*

\*Calls charged at national call rates

## All Hotpoint Appliances have a 10 year Parts and 1 year labour Guarantee

If you should have a problem with your appliance please call us where our dedicated, specialist team will be able to assist you.

We have one of the largest white goods service teams in Ireland with fully qualified Hotpoint engineers to ensure you receive a fast, reliable local service.

You can call us when you need us, including weekends and bank holidays. Open 364 days a year

Please call: 0818 313 413\*

\*Calls charged at national call rates

If you wish to view the range of Hotpoint appliances, why not visit our showroom and advisory centre, simply contact us to make an appointment
