LIGHTING
SIMPLE

sensio®

BEAUTIFULLY SIMPLE LIGHTING SOLUTIONS

Since 2007 we've been creating lighting in harmony with modern life. Specialising in kitchens, bedrooms and bathrooms, quality and innovation has always been at the heart of what we do, from lighting that stands the test of time to technology that's exclusive to us.

At Sensio we pride ourselves on providing premium products matched with a flawless execution and service. All of our lighting solutions are designed and developed right here in the UK, where we can constantly strive to create new concepts to brighten people's lives. Always pushing to pioneer new technology that seamlessly illuminates customers' homes, our passion is making lighting both intelligently simple and beautiful.

We hope to inspire your space with the power of lighting and thank you for partnering with us at Sensio.

Michael Linsky
Managing Director

OUR PROMISES TO YOU
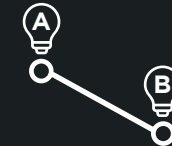

Making Lighting Simple

Making Lighting Simple - one of the defining principles by which we live and breathe. Everything we do, whether it is in the design of our products, our customer service or how we communicate, we strive to always have Making Lighting Simple at the core. If it's not simple for you, our customer, we find another way until it is.

Market Leading Innovation

We place our focus on doing things a little differently. We are dedicated to designing and developing new and innovative lighting solutions that meet various design requirements. Our high quality range of products offer the very latest LED technology and features to work in harmony with customer's kitchens and bedrooms. With our own in-house Product Development Team, we have the ability to not only work closely with customers to design products we know they need, but also innovate and lead the way in creating first to market, patented products.

Extraordinary Service

We're here to offer our exemplary service levels to every single customer. Whether that's a quick resolution to your email query, ensuring your orders get to you on time and in full or proactive communication and exceptional account management, we're committed to offering extraordinary service at every point.

PIONEERING DESIGN

Designing in-house, we develop our products and packaging with the future in mind. Thinking about efficiency and waste reduction whilst creating high quality innovation.

DESIGNED
IN THE
UK

WE DON'T JUST FOLLOW THE TRENDS - WE HELP SET THEM

Our expertise and industry knowledge is an integral part of our business with our in-house product development and design team based here in the UK. To us, every detail makes the difference and we're not satisfied until each product is finished to the highest standard.

A number of our lights and profiles carry Registered Design Rights. This means as we strive to continually bring innovative and exciting products to the market, our valued partners can be assured of having access to products they won't find elsewhere.

Our extensive product range is also constantly reviewed, enhanced and improved to ensure we stay at the forefront of our industry.

SUPERIOR QUALITY, GUARANTEED DURABILITY

We pride ourselves on using only the best components and materials to guarantee long life performance, high light output and enhanced durability. All of our products go through rigorous third-party testing and we're proud to be ISO 9001 accredited.

Our products have won awards for their design excellence time and time again and we're so confident that each product will exceed your expectations that we offer a 5-year guarantee on all of our kitchen and bedroom fittings.

INSPIRING SERVICE & SOLUTIONS

We're always researching the latest trends, technology and fashion to deliver solutions that stand the test of time. We delve deep into the market to shine a light on how our products can improve home environments and the way people live. So whenever you choose a Sensio product, you can be assured it's been thoughtfully created for the future.

WE'RE WORKING TOWARDS A MORE SUSTAINABLE FUTURE AND ARE COMMITTING RESOURCES TO ACTIVELY REDUCE OUR FOOTPRINT.

We care about our impact on the world and have set ourselves goals over the next 3, 5 and 10 years to meet high standards throughout our processes, operations and products to limit or mitigate our impact on the environment. These include:

Packaging
We aim to reduce plastics from our product packaging as much as possible, including recyclable plastics, in favour of paper and cardboard

Product
All products will be created with Long Design Life in mind, ensuring robust, long serving products including use of high quality LEDs for maximum life span

Partnerships
Careful selection of our production partners evaluated in accordance with our guidelines and carry ISO 14001

Net Zero
Improve the robustness of our supply chain to mitigate air carriage, maximise sea freight effeciences and increase local production to help achieve our target of Net Zero

THE POWER OF
LIGHTING

01

Lighting can completely transform your space beyond the practical benefit it brings. It creates ambience, a brighter, more spacious and multi-dimensional feel and highlights design features.

Considering a lighting scheme at the initial design stages will influence the overall atmosphere of the interior space.

CREATING A LIGHTING PLAN

We know how important it is for customers to envision how their kitchen design will look in the initial stages. To ensure the process runs as smoothly as possible, we are partnered with leading kitchen design software to bring your dream plans to life: 2020, KBB Connect, KBB Smart and Compusoft.

Add impactful lighting to the kitchen by following our simple and stress-free tips.

2020 ACCREDITED MANUFACTURER   KBBConnect   KBBSmart   COMPUSOFT

LIGHT IN LAYERS

Splitting lighting into three categories from task to mood and convenience gives you the opportunity to layer your lighting. Start with task lighting around food preparation areas, transition into convenience lighting inside cupboards or drawers and then consider how mood lighting could create an ambient atmosphere.

FACTOR IN THE POWER

Creating multiple zones of lighting calls for power to different parts of the kitchen. It's much easier to install the wiring before the kitchen installation, so plan where wiring needs to be included so you can power the lights once installed. Think about the wall units, base units and the island unit if you want to create feature lighting under worktop edges or plinths.

COMPLEMENT THE KITCHEN DESIGN

Is the kitchen contemporary or traditional? Rustic or modern? This may help inform the style of fitting you choose but also the colour temperature of the lights. Warm white LEDs emit a yellow glow and complement a traditional style kitchen featuring wood surfaces and muted worktops perfectly, whereas cool white LEDs are more suited to contemporary style kitchens. The white light bounces off gloss or contemporary surfaces like granite for a mesmerising finish.

GET CREATIVE

Much more than a functional feature, lights can truly transform a space. Zoning the lights so they run from different switches really helps make the most of the space as you're in control of which lights turn on and when.

CONSIDER THE CONTROLS

Lighting elements can be controlled either together or separately depending on the kind of lighting you install and how the kitchen space will be used. For example, you may want all the under cabinet lighting to turn on together, you may want the kitchen cupboards to light up when the cupboard door is opened, or you may want to create a relaxing ambience with feature lighting switched on with the touch of a remote or smart phone app.

CHOOSING KITCHEN LIGHTING

Kitchen lighting can be split in to three categories, with each offering its own purpose and benefits:

1 TASK LIGHTING

As the name suggests, task lighting is perfectly positioned to ensure the kitchen is an efficient working space for everyday tasks such as cooking. Typically, kitchen task lighting is positioned under wall units to illuminate the worktop, focusing light exactly where it is needed.

2 CONVENIENCE LIGHTING

Convenience lighting illuminates cupboards, wardrobes and drawers when opened for ultimate ease of use, while adding a luxurious finish to the kitchen or bedroom design.

3 MOOD LIGHTING

Mood lighting creates depth and dimension, which is essential for creating atmosphere within a room. If you're looking to brighten the mood of the kitchen, consider lighting along the plinth, up-lighting above wall units, lighting beneath breakfast bars or the underside of a worktop and lighting the inside of glass fronted cabinets. Mood lighting is often overlooked, but one that can have a profound impact.

CUSTOM COLOUR

THE LED COLOUR YOU CHOOSE CAN MAKE A HUGE IMPACT ON THE OVERALL LOOK

Choosing the right lighting colour will boost the aesthetics of the design by complimenting the chosen colours and materials.

Typically, LEDs are available as cool, natural or warm, and we use a measure called the Kelvin scale (K) to determine the temperature output of our lights.

Anything between 2500K and 3000K is considered warm, 3500K and 4500K is natural, while anything between 4500K and 6500K emits a cooler temperature.

Cool white LEDs are more suited to contemporary or modern styles. Cool white bounces off gloss or contemporary surfaces to create a stunning effect.

Natural white sits between warm and cool white and recreates the effect of natural daylight. Natural white's versatility means it can complement a range of styles.

Warm white LEDs emit a yellow glow (similar to that of a halogen) and perfectly complement traditional styles with features such as timber finishes and muted worktops.

TRIOTONE®

TrioTone® lights feature a switch to set the colour temperature on individual fittings.

A Sensio trademarked concept first introduced in 2017, TrioTone® provides 3-in-1 lighting choice in one fitting. These diverse products are specifically designed to provide the option to select or change the colour temperature without having to replace the whole fitting.

Sensio TrioTone® products can be set to 3000K (warm white), 4000K (natural white) or 5000K (cool white).

5000K	4000K	3000K

Cool ——————————————————— **Warm**

6000K ← - - - - - - - - ○ - - - - - - - → 2700K

CCT

CCT products allow for advanced control via our Universal Remote & CCT receiver or Titan Smart Kinetic Driver paired with the kinetic switch, Link Sensio app or smart home device

Correlated Colour Temperature (CCT) is a concept that provides a seamless transition from warm to cool white temperatures.

CCT gives the user the power to cycle through the full spectrum of temperatures between cool, natural and warm light. This allows you to accurately mimic outside lighting conditions - a feature that has been scientifically proven to have a positive impact on our health.

TECHNICAL CENTRE

Some lights present different options for installation, linking together and control. These pages, alongside the detailed information around choosing the correct driver found on pages 180-181, will make the process of selecting and installing our lighting as simple as possible.

12-VOLT VS. 24-VOLT LIGHTING

ALL SENSIO LIGHTS ARE 24-VOLT, OFFERING A NUMBER OF BENEFITS OVER ALTERNATIVE 12-VOLT SOLUTIONS.

24-Volt
Sensio Titan driver

12-Volt
Driver
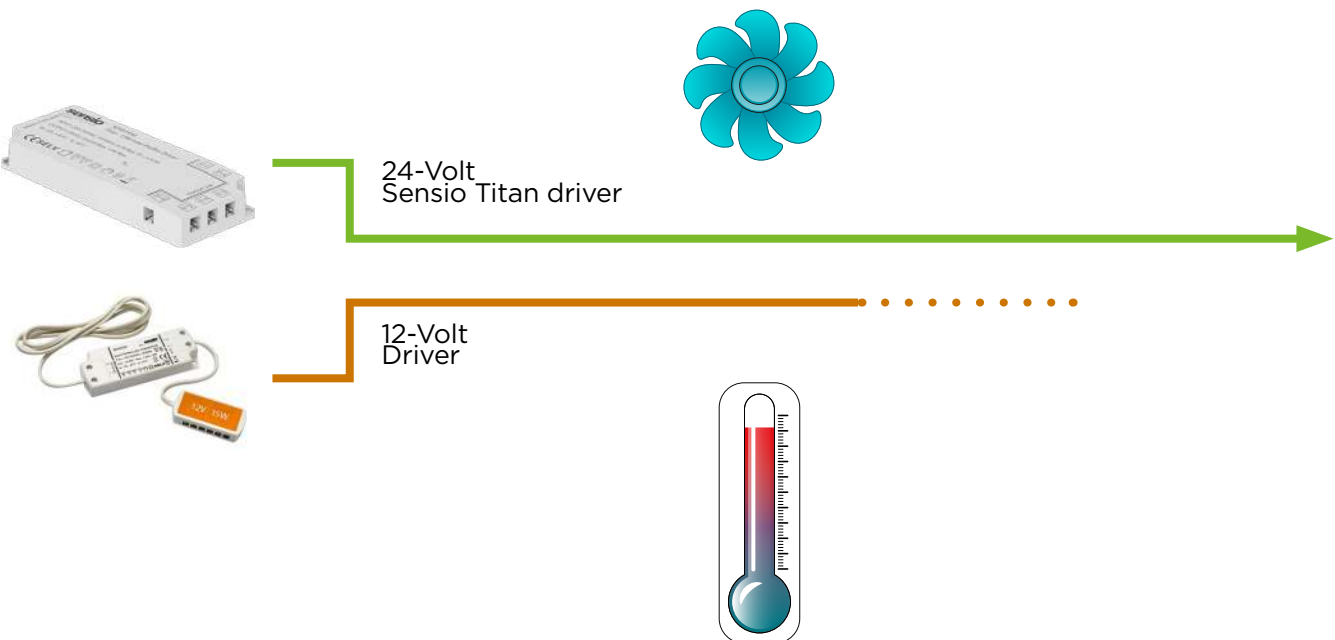

LESS VOLTAGE DROP

24-Volt allows for longer runs of light with no loss of power or brightness over distance.

STAYS COOLER

24-volt lighting dissipates less heat and stays cooler over time. This means more efficient lights which don't overheat.

UP TO 75% MORE EFFICIENT

For a given power wattage, a 24-volt Sensio product will consume 50% less current than the 12-volt equivalent, offering up to 75% more efficiency when factoring reduced heat loss.

POWER

240V PRODUCTS
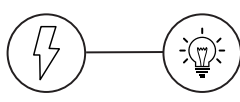

240 volt products can either be plugged into a power socket or wired directly to the mains.

PLEASE NOTE: THE MAJORITY OF 240V PRODUCTS DO NOT COME WITH A PRE-WIRED PLUG.

24V PRODUCTS
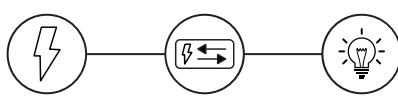

24V is significantly lower than the mains electricity that comes into our homes.

Our low voltage products require an LED driver that converts the voltage from 240V to 24V.

All our 24V products are Plug & Play - this means they plug directly into the LED driver without the need for an electrician.

WATTAGE AND LED DRIVERS

4W + 4W + 4W = 12W Total Wattage
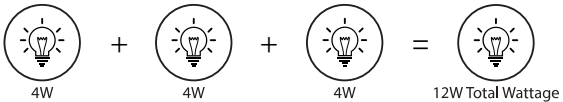

The number of lights that an LED driver can power is determined by the wattage, so it is important that the driver selected has an adequate wattage for the lights.

The appropriate LED driver can be easily found by calculating the total wattage of all lights in the run. The total wattage should not exceed the rated wattage of the LED driver.

DAISY CHAIN PRODUCTS
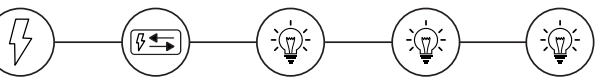

To make installation as simple as possible, some of our products can be linked together in a daisy chain.

This is a great way to extend the range of an LED driver in a long run of lights. Especially when powered with a higher voltage, such as 24V.

TECHNICAL CENTRE
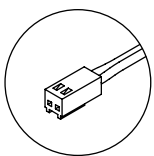

CONNECTORS

2-Pin
The most-common type of connector in the Sensio range and compatible with all drivers (with exception of the CCT Titan Smart Kinetic Driver). This type of connector is also compatible with the Single Colour Receiver.

6-Pin
These are found on our RGBCCT products and assist in the control of both colour temperature and RGB in compatible products.

4-Pin
These are found on our CCT products and are compatible with Titan Smart Kinetic Drivers and the CCT Receiver.
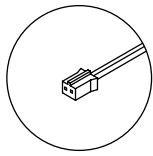

Quick Connect
This port enables the driver connection cable to plug directly into the back of the lamp, simplifying installation.

LIGHTING CONTROL

Receivers and Remotes
Receivers and remotes allow for additional lighting control such as dimming, changing colour temperature and RGB. These can be added to most Sensio products.

Smart Products
Smart Drivers allow Sensio 24V products to connect to smart home devices such as the Google Assistant and Amazon Alexa via the Link Sensio App, adding smart lighting control. See more on p188.

240V — LED Driver — Receiver — 24V
Remote Control

240V — Smart Driver — 24V
Smart home device — Link Sensio App — Mobile Phone
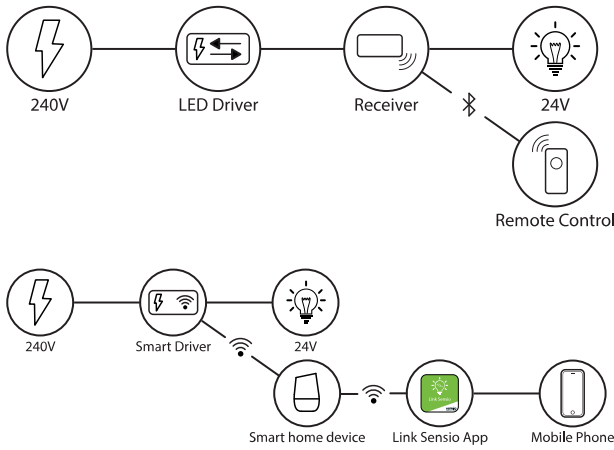

SENSORS & SWITCHES

Infrared (IR) sensors
IR sensors are used to control lighting with close-range hand gestures. Example: waving to turn your lights on/off.

Passive infrared (PIR) sensors
PIR sensors are used to control lighting when somebody enters the detection range. Example: entering a room.

Gate Sensor
Gate (or door) sensors are used to control lighting with the opening and closing of doors. Example: opening a cabinet or drawer.
Push switch
Push switches are used to control lighting with the push of a button.
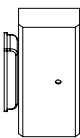

Magnet and reed switch
A magnet and reed switch is used to control lighting with the opening and closing of doors. The advantage a magnet and reed switch system has over a gate sensor is that multiple switches can be set up to control the same set of lights. It is also wireless.
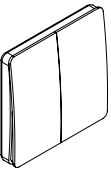

Kinetic switch
Kinetic switches are used in conjunction with the Titan Smart Kinetic drivers to offer the freedom of wireless control. The switches require no additional power or installation and offer advanced control such as dimming and colour adjusting when configured with CCT lights. 1, 2 and 3 gang switches available.

TECHNICAL CENTRE

With the introduction of new EU energy labels on electrical products, here's what the new labels mean for your Sensio lighting products.

WHY HAVE A NEW EU ENERGY LABEL?

Due to the popularity of light emitting diodes, lighting has become very efficient over the past 20 years with most products on the market falling comfortably into the A to A^{+++} rating.

To make way for future improvements in energy saving technology, a new grading system has been implemented which simplifies the grading system as well as making it much harder for products to achieve higher ratings.

The grades now range from A to G and all products are re-classified on this new scale.

Customers can be assured they are still receiving the high quality lighting products from Sensio they did previously. However, the simplified scale now makes it easier to make an informed decision when choosing their lighting as well as allowing room on the scale for products with future advancements in energy saving technology.

Regulation: (EU) 2019/2015

HOW THE LABELS HAVE CHANGED

THE SENSIO SERIES

DESIGN AND INNOVATION ARE AT THE CORE OF SENSIO, STRIVING FOR SIMPLICITY WITHOUT COMPROMISE

Our Series 1 3 & 5 collections are designed to group products by features to make the lighting design process easy. Ranging from a simple all natural white set, controlled at the wall through to voice activated, custom colour solutions.

All Sensio lights feature the same quality components and designs at their core to deliver stylish and efficient products, you can trust will last a lifetime:

50,000 Hours Light Life

Fantastic longevity providing the equivalent life to having the lights switched on continuously for 5 hours a day, for 27 years!

High Efficiency

Not only does each light benefit from a superb lumen output, ensuring bright illumination, each light runs off 24V, making them exceptionally efficient to run and providing maximum light performance.

High Colour Accuracy

Brightness and consistency of the lights is of exceptional standard and provides a true reflection of the colour temperature.

Quality Guaranteed

Each light has been designed and manufactured to guarantee superb performance, longevity and quality and benefits from Sensio's 5 year guarantee.

SER1ES
SIMPLICITY

Series 1 offers a concise range of simple, high quality LED lights with no compromise on quality or efficiency whilst benefitting from excellent pricing (based on minimum order quantities).

SERI3S
CHOICE

Series 3 provides choice and customisation offered across a wide selection of products adding colour temperature options and different product finishes.

SERIE5
TECHNOLOGY

Series 5 brings advanced lighting colour technology and control options to truly bring smart connectivity to the home.

PRODUCT FEATURES

All our products have their own unique features. To help compare and select products quickly and easily, you will find icons on each product page.

LIGHTING

Dimmable

CONNECT & CONTROL

Infra-red sensor - swipe activated

Touch activated

Activates on opening of a door or drawer

Push button activated

Rocker switch to control additional features

Simple pull cord activation

Wireless Kinetic

PIR sensor - motion activated

INSTALLATION

Standard UK 240V powered

Values other than 240V indicated power supply from the product

Battery powered (Replacable)

Rechargeable battery power

Supplied cable length

Fire rated for additional safety

Product can be retrofitted - no wiring required

Bathroom zone suitability, determined by IP rating

Resistant to larger objects such as fingers. No water protection

Resists ingress of objects over 1mm and water splashes

Resists partial dust ingress and water splashes

Dust and air tight. Resists low pressure water jets

Mounts by seating on wall brackets

Mounts to a back box secured to the wall

Simple keyhole mounting on screws

Can be installed in portrait or landscape orientation

NOTES

- All products are IP20 unnless stated as higher
- Always refer to the installation guides provided with all our products for more detailed information on fitting
- Whilst Sensio lights are designed to be simple plug & play systems, any mains electrical work should be carried out by a certified electrician

FLEXIBLE LED STRIP LIGHTING

5 YEAR GUARANTEE

- Simple to use and can be installed almost anywhere

- Adds depth to the kitchen by illuminating above the wall units, along the plinth or under the worktop edge

- Perfect for creating ambient mood lighting

- Can be used inside profiles, which offer an alternative way to secure the strip, diffuse and angle the light

02

DART
FLEXIBLE LED STRIP

- A simple, highly efficient flexible strip
  light with superb light output
- Available in natural white making it ideal
  for a range of kitchen styles
- Cut marks are indicated every 100mm to enable
  the strip to be cut closer to the desired length
- Cut sections can be re-utilised with the joining
  clips and leads (sold seperately)
- 3M VHB (Very High Bond) tape underneath
  the strip for secure installation
- Compatible with all Sensio single-colour lighting controls
- IP20 rated - protected against solid
  objects over 12mm (e.g. fingers)
- Compatible with the Universal profile range
- Supplied in a 5m reel
- The Dart can also be purchased as a kit with a 2.5m driver
  connection cable, pre-wired 13A 3pin plug and LED driver

Dart Flexible LED Strip **- Natural White (4000K), 60 LED/m**

SE9009	2.5m Extension Cable

PRIMO 2
FLEXIBLE LED STRIP

- A versatile and economic flexible strip ideal for kitchen or bedroom
  use, under cabinets, along plinths or inside cabinets or wardrobes
- The entire reel can be used with cut marks
  indicated every 100mm avoiding wastage
- Cut sections can be re-utilised with the joining
  clips and leads (sold separately)
- Compatible with Sensio single-colour receivers
  to enable dimming functionality
- Supplied with 3M VHB (Very High Bond) adhesive
  tape backing for secure installation
- IP20 rated - protected against solid objects over 12mm (e.g. fingers)
- Supplied in a 5m reel

NEUTRON
3.5MM NANO LED FLEXIBLE STRIP

- The industry's smallest flexible strip measuring at only 3.5mm in width
- Ideal choice for kitchen designs where inconspicuous lighting is essential
- Highly compacted diodes greatly reduce the appearance
  of dots whilst providing a powerful light output
- Cut marks every 25mm enable the strip to be cut closer to the
  desired length reducing potential dark spots at each end
- Driver connection cables pre-soldered at either end of the strip
- Compatible with Sensio single-colour receiver
  to enable dimming functionality
- 3M VHB (Very High Bond) tape underneath
  the strip for secure installation
- Supplied in a 5m reel
- Compatible with the Nano-Lines and Micro-Lines profile ranges

VIVA 3
FLEXIBLE LED STRIP

- A versatile flexible strip light which can be used in multiple areas of the kitchen or bedroom including under cabinet, plinths or inside wardrobes
- Male and female ends for simple installation
- Strip can be cut once and the remaining section used with a connector clip and interconnecting lead if required
- Can be cut to length every 50mm
- Supplied with 3M VHB (Very High Bond) adhesive tape backing for secure installation
- IP54 rated - limited ingress of dust and protected against sprays from any angle
- Supplied in a 1m, 2m or 5m reel
- Compatible with the Universal Profile range

2.5m Driver Connection Cable (SE10314) is required to run the Viva 3 (sold seperately if not bought as part of a kit)

Viva3 LED Flexible Strip - Cool White (5500K), 120 LED/m

SE9009	2.5m Extension Cable

SIGMA 2
BENDABLE LED FLEXIBLE STRIP

- An innovative bendable flexible strip that handles corners with ease
- A unique PCB board cut in a 'zig-zag' shape provides superb
  flexibility allowing you to bend the light around a corner
- Can be bent around 90 degree corners without the need
  for corner cables or starting a new run of strip
- The entire reel can be used with cut marks
  indicated every 50mm avoiding wastage
- Cut sections can be re-utilised with the joining
  clips and leads (sold separately)
- Compatible with Sensio single-colour receiver
  to enable dimming functionality
- Supplied with 3M VHB (Very High Bond) adhesive
  tape backing for secure installation
- IP20 rated - protected against solid objects over 12mm (e.g. fingers)
- Supplied in a 5m reel

2.5m Driver Connection Cable (SE970850) is required to

run the Sigma 2 (sold seperately)

REGISTERED DESIGN RIGHT - 6024618

POLAR
COB FLEXIBLE LED STRIP
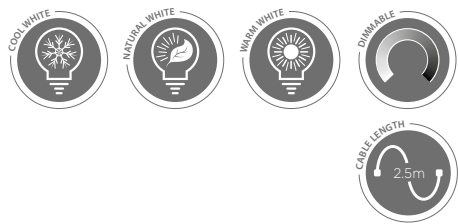

- Provides a completely diffused line of light with no visible
- LED dots eliminating the need for a profile or cover
- Chip on Board (COB) technology provides superior light output
- Excellent thermal conduction resulting in a cool running strip
- 24V allows long runs of light without any light fade
- Compatible with Sensio single-colour receiver
  to enable dimming funtionality
- Supplied with pre-soldered, 1.5m driver connection cables
  with 2-pin connectors at each end of the strip
- Can be cut to length (every 31mm) and the whole reel can
  be utilised with the Polar Joining Clips (sold separately)
- Supplied in a 5m reel
- VHB (Very High Bond) adhesive tape backing for
  secure installationVHB (Very High Bond) adhesive
  tape backing for secure installation
- Compatible with the Universal Profile range

RADIANT
DIFFUSED FLEXIBLE LED STRIP

- An entirely diffused, bendable, silicone flexible strip light
  ideal for application across the kitchen or bedroom
- Discreet, slimline 4mm width
- Driver connection cables pre-soldered at either end of the strip
  so two lengths can be used from the same reel if required
- Cut marks are indicated every 50mm on the back of the strip
- Ideal for a flush, recessed finish with a simple push-fit application
- Can be surface mounted with the use of the mounting brackets
- Supplied end caps provide a clean and IP rated finish to cut ends
- Able to navigate around curves on island units and cabinetry
- Compatible with Sensio dimmable receivers

RAZOR
DIFFUSED EDGE-LIT RECESSABLE LED STRIP

- A super-slim evolution of our fully diffused Polar COB strip.
- Thin 2mm depth creates a discreet appearance
  while providing superb light output
- Narrow channel for routed installation can
  easily be made with a simple saw cut
- Excellent thermal conduction resulting in a cool running strip
- 24V allows long runs of light without any light fade
- Supplied with pre-soldered, driver
  connection cables at both ends
- Can be cut to length (at 31mm intervals) with
  both ends of the strip being utilised
- Supplied with VHB tape pre-applied

ION 8
CCT FLEXIBLE LED STRIP

- Over four times the number of LEDs per metre than it's predecessor, Ion 8 greatly reduces the appearance of visible LEDs providing a premium light output
- Correlated Colour Temperature (CCT) allows the perfect light temperature selection and transition from warm to cool white temperatures
- Can be cut to length (every 50mm) and the whole reel can be utilised with the Ion Joining Clips (sold separately)
- Compatible with Sensio CCT Receiver and Universal Remote Control or the Titan Smart Kinetic Driver to control, zone and dim the lights
- VHB (Very High Bond) adhesive tape backing for secure installation
- Supplied in a 5m reel
- Compatible with the Universal Profile range

2.5m driver connection cable required to run the Ion 8 (sold separately unless part of a kit)

FLUX
RGBCCT LED FLEXIBLE STRIP

- A fully customisable, flexible strip light to suit any style, mood or atmosphere
- A combination of RGB and CCT provides the ultimate colour changing solution enabling colours to be mixed and matched to create millions of combinations
- Features 24 pre-set RGB colours and 11 shades of white (CCT)
- Colours can be set individually or RGB colours can be mixed with the CCT colours to create a multitude of different shades
- Each colour can also be dimmed to achieve further customisation
- A high number of LEDs per metre significantly reduces the appearance of individual LEDs
- Compatible with Sensio CCT Receiver and Universal Remote Control or the Titan RGBCCT Smart Driver to control, zone and dim the lights*
- Cut marks are indicated every 142.5mm on the back of the strip
- VHB (Very High Bond) adhesive tape backing for secure installation
- 5m reel supplied with driver lead attached to both ends (2m reel with lead at one end only)
- Compatible with the Universal Profile range

optimum colour choice and control is achieved using the RGBCCT Receiver and Universal Remote Control

Set to one of multiple colour options with a full range of RGB and cool to warm white

PROFILES & INTEGRATED SOLUTIONS

GUARANTEE
5 YEAR

03

- Profiles coupled with flexible strips offer a non-intrusive way of lighting the kitchen while enhancing the overall design
- Perfect for creating a flush, sleek look
- Creates fully diffused expanses of light without visible light diodes
- Simple to use and install, the versatility of flexible strip lighting makes it suited to a range of applications across the kitchen and using one of our Profiles increases the possibilities even further.

03

THERE ARE THREE FAMILIES OF PROFILES IN THE RANGE:

NANO

Blaze, Gamma & Ray (to fit 3.5mm flexible strips)

MICRO

Vector, Accent, Adapt & Glow (to fit 5mm flexible strips)

UNIVERSAL

Adorn, Contour, Linia, Fino & Beam (to fit all flexible strips up to 10mm)

RAY
ANGLED PROFILE

Compatible with Neutron Flexible Strip

- Designed specifically for the 3.5mm wide Neutron flexible strip - part of the Nano-Lines range of super slim lights and profiles
- Fully diffused, angled light source - prevents glare and ideal for wardrobes where the light needs to be focussed
- Suitable for a range of applications in the kitchen and bedroom including wardrobes and cupboards
- The flexible strip mounting platform inside the profile is angled to enable the flexible strip to extend around corners when paired with the Ray corner connectors
- Fully diffused corner connectors result in a fully illuminated light circuit with no dark corners
- Supplied with pre-applied VHB tape for simple "peel and stick" installation
- Can be cut to size
- Supplied with one set of end caps (additional end caps sold separately)

GAMMA
SLIM SURFACE MOUNTED PROFILE

Compatible with Neutron Flexible Strip

- Designed specifically for the 3.5mm wide Neutron flexible strip - part of the Nano-Lines range of super slim lights and profiles
- An incredibly thin profile that produces an even spread of light with no visible LED points from the flexible strip
- Perfect for use under cabinets, in larders or wardrobes
- Features an internal angled flexible strip mounting platform enabling the strip to extend around corners when paired with the corner connectors resulting in a fully illuminated light circuit with no dark corners
- Simple push-fit installation with brackets
- Can be cut to size
- Supplied with one set of end caps (additional end caps sold separately)
- 1.5m length supplied with 2 mounting brackets and 2.5m length supplied with 4 mounting brackets (additional mounting brackets sold separately)

ACCENT
PLINTH PROFILE

Compatible with the Ion 5 or Neutron
Flexible Strip

- Designed for mounting flexible strip lighting along plinth boards
- Features an internal angled flexible strip mounting platform enabling the strip to extend around corners when paired with the corner connectors resulting in a fully illuminated light circuit with no dark corners
- The angled flexible strip mounting platform ensures the diffusion of individual LED points, as well being removable for ease of installation and serviceability
- Part of the Micro-Lines range exclusively designed for flexible strips 5mm in width or below
- Fits 16-18mm plinth boards
- Can be cut to size
- Supplied with 2 end caps (additional end caps sold separately)

TRIOTONE® CUBE & CIRCA
DUAL POWER IP65 FIRE RATED DOWNLIGHT

- A stylish, glass bezel ceiling spotlight available in two shapes and two finishes
- Bezel available in both tinted black or clear glass
- Choose from either square with rounded corners (Cube) or round (Circa) fitting
- TrioTone® technology allows you to select cool white, natural white or warm white with a flick of the switch on the back of the fitting
- Incorporates integrated driver
- Easy to install (Plug & Play Technology)
- Fully tested to 30, 60, 90 minutes fire rating
- Dimmable from 0-100%
- Dual power switch, 5W & 8W settings
- IP65 rated making them suitable for kitchen and bathroom use (Zone 1 and 2)

CUBE - REGISTERED DESIGN RIGHT - 6056146

CIRCA - REGISTERED DESIGN RIGHT - 6056147

Titan+ features an extra port
for plug & play sensors

TITAN+
SENSOR DRIVER

- Slim 16mm depth
- Easy to use and install
- Available as 6W/15W/30W
- Integrated 2-pin connector, distribution ports
- Compatible lighting control accessories - PIR, IR,
  Switch & Door sensors. Simply plug in the chosen
  sensor to the designated port in the driver.
- Mains cable included
- Dimmable when paired with the Titan+ IR sensor

TITAN+
SENSOR ADAPTER

- Turn any standard driver into a Titan+
- The Titan+ Sensor Adapter allows this sensor range
  to be used with any driver featuring 2-pin ports
  to control lights placed afterwards in the chain.

Titan+ - **Sensor Adapter**

CODE	DESCRIPTION
SE797990	Titan+ Sensor Adapter
SE797991	Titan+ Double Door Sensor Adapter

IR
TITAN+ SENSOR

- Allows activation of all lighting plugged into
  the Titan+ driver with the swipe of a hand
- Detection range of 0-5cm
- Perfect for recessed or surface mounting
  (with the included bracket)
- Cut out diameter of 12mm
- 2m connection cable
- Adds dimmable functionality to Titan+ driver

PIR
TITAN+ SENSOR

- Allows activation of all lighting plugged into
  the Titan+ driver by detecting motion
- Detection range of 0-3m
- Detection angle of 120°
- Perfect for recessed or surface mounting
  (with the included bracket)
- Cut out diameter of 12mm
- 2m connection cable

DRIVER
PORT EXPANDER

- Increase the capacity of the
  driver with an added 12 ports
- Always remember the
  total wattage of lights
  connected should not
  exceed that of the driver

DOOR
TITAN+ SENSOR

- Allows activation of all lighting plugged into the
  Titan+ driver with the opening and closing of doors
- Perfect for recessed or surface mounting
  (with the included bracket)
- Cut out diameter of 12mm
- 2m connection cable

PUSH SWITCH
TITAN+ CONTROL

- Allows activation of all lighting plugged into
  the Titan+ driver with the push of a button
- Perfect for recessed mounting in to a worktop
- Features a robust clicker switch
- Cut out diameter of 12mm
- 2m connection cable

TITAN DIMMABLE
DRIVER

- Depth of 16mm
- Integrated 2-pin connector, distributor ports
- 2m mains cable included
- Short circuit & overload protection
- Surge and thermal protection
- Wide dimming range: 5% - 100%
- Wall dimmable
- Easy to use - Just plug and play
- Minimum 25% load

SMART PHONE APP

- The "Link Sensio" app is available to download for free on both iOS and Android smart devices. Use the app, in conjunction with a smart home device, to operate our Titan Smart Kinetic Driver.
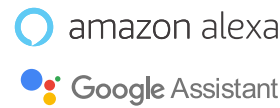

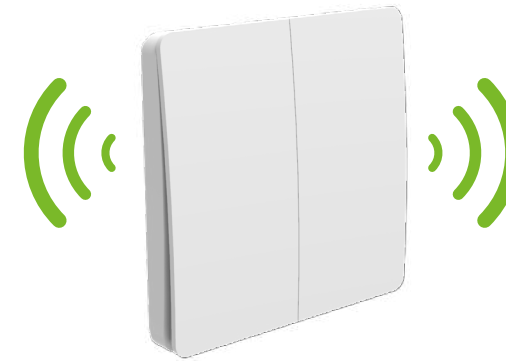

KINETIC SWITCH
WIRELESS CONTROL

- Switch can be placed anywhere with no additional power or wiring required
- Simple, wall mount installation via screws or adhesive tape included
- Connects to the Titan Kinetic driver or 240V mains receiver at the press of a button
- One, two and three gang options available for additional control functions such as dimming, colour adjust and zoning

Titan - Kinetic Switch

CODE	DESCRIPTION
SE781990	1 Gang
SE782990	2 Gang
SE783990	3 Gang

KINETIC RECEIVER
240V MAINS LIGHTING CONTROL

- Allows control of any mains lighting with the wireless kinetic switch
- Colour adjust and dimming with compatible lights such as the Sensio IP65 downlights
- WiFi function for control via the Link Sensio App and smart home devices
- 200 - 240V mains input
- Maximum load 100W

Titan - Kinetic Switch

CODE	DESCRIPTION
SE780990	Kinetic Reciever

SINGLE COLOUR
RECEIVER

- Control single colour lighting products (e.g warm white colour temperature lights)
- The receiver has a memory function to recall settings
- Multiple receivers can be paired with the a single Universal Remote Control
- 30m range
- 96W at 12V and 192W at 24V

UNIVERSAL REMOTE
CONTROL

- The remote can control single colour lighting (dimming), CCT (tunable white) and RGB (colour changing) lights
- Offers a multitude of functions including the ability to set up channels and zone lighting
- Wall mounting bracket provided to keep the remote safe and secure when not in use
- Requires 2x AAA batteries (not included)

Use in conjunction with the appropriate receiver for the chosen lights.

Universal Remote Control
